# User manual

## Step 1: Turning On the Power Switch

Push the Power switch to turn the device on/off. Once the device is turned on, the power indicator light will begin to flash after 3 to 5 seconds (flashing twice rapidly each time).

ON ⟷ OFF

**Power Supply:**
The keyboard case is charged via the TYPE-C interface.
Power adapter and Type-C charging cable is not included.

**Caution:**
Please store the device at normal temperatures and charge it under normal voltage conditions. If the keyboard has not been used for a long time or is being used for the first time, please fully charge it.

## Step 2: Establishing Bluetooth Connection

1. Press and hold the " ⚮ " button for 3 to 5 seconds, the Bluetooth indicator light will flash, indicating that the keyboard's Bluetooth is waiting for pairing.
2. Open your iPad >> Settings >> Bluetooth, search for "AMORK-KHXXXX" in the list, and then click it to connect. (The Bluetooth name - KHXXXX, will vary in the last four digits depending on the different series of keyboards.)

**Notes:**
1. When the Bluetooth indicator light stay solid for 2 seconds, and then stops flashing, it indicates that the device is connected.
2. After turning on the keyboard, if there is no signal input for more than 10 minutes, the keyboard will automatically enter sleep mode. At this point, you only need to double-click any button to reactivate the keyboard (no need to turn the power on/off and reconnect).

**Tips:**

1.After the initial successful connection, it will prioritize automatically connecting to the last paired device.

2. After the keyboard is successfully connected to the iPad, swipe right on the iPad's home screen. The battery usage time of the keyboard depends on the Bluetooth icon, as shown in Figure 1.

Figure 1.

## What should I do if the keyboard can not connect to the iPad?

1. Ensure that the keyboard has been paired via Bluetooth.

2. The Bluetooth keyboard is charged.

3. The Bluetooth keyboard is within a range of 33 feet.

4. Please delete all devices from the iPad's Bluetooth list, then restart the iPad's Bluetooth and restart the keyboard.

5. Multi-device connection is not supported; only single-device connection is supported.

6. When the battery level is low, the Bluetooth connection may be interrupted.

## LED Indicators:

1. On : Caps Lock mode is on
2. Off : Caps Lock mode is off

1. Red flashing : Low battery warning
2. Red solid : In charging mode
3. Blue flashing (rapidly twice each time) : Power is turned on
4. Blue flashing (once each time) : Bluetooth is waiting for pairing
5. Blue solid 2s and then turns off : Bluetooth is paired

## How to change between lowercase and uppercase on the keyboard?

1. The caps lock default function is switch languages. So to type capital letters on the keyboard, please turn off the cap lock default function first

2. Go to your iPad settings—Keyboards setting- hard ware keyboard—turn off the toggle of switch languages using caps lock, then you can change between lowercase and uppercase by press the caps lock key
